LEADED GLASS ART IS ALIVE AND WELL ON MAUI

Daniel Ford Tarr

artist, designer and creator of Exceptional Leaded Glass.

Daniel was born and raised in San Diego County, Ca. and pursued studies in biology at the University of California, Berkeley. He had a passion for the environment and what began as a side interest in "stained glass" blossomed into a life-long passion, now some twenty-five years along.

It is not the dew drop which slips from the lotus into the sea, but the sea which slips into the dew drop.

OM appears to one as a symbol of a divine uni-

Tibetan OM

verse, to another as a symbol of infinite being or as eternal life.

There are some to whom it represents omnipresent light, others to whom it means universal law, and again others

who interpret it as omnipotent consciousness, as all-pervading divinity, or in terms of all-embracing love, cosmic rhythm, ever-present creativeness, or unlimited knowledge.....

It is not the dew drop which slips from the lotus into the sea, but the sea

which slips into the dew drop. The universe be-

comes conscious in the individual (but not vice versa), and it is in this process that completeness is achieved, in regard to which we neither can speak any more of "individual" nor of "universe".
